Waterfalls
EXECUTIVE CONDOMINIUM

FLOOR PLANS

ONE OASIS

THOUSANDS OF UNFORGETTABLE MOMENTS

Punggol, Singapore's new waterfront city, transforms into a vibrant enclave that combines the charms of waterfront living with the allure of a contemporary lifestyle. In this massive masterpiece of urban planning lies its crown jewel, Twin Waterfalls. And all around this prestigious residential development, thousands of experiences beckon.

Twin Waterfalls is the new Executive Condominium that is just a 7 minute walk to Punggol Town Centre and Punggol MRT station. The towers of Twin Waterfalls rise above sparkling blue waters to form landmarks of luxury living. This is the perfect place for you and your family to begin a beautiful life in the charming waterfront town of Punggol.

VISTA HOMES

ONE UNIQUE HOME MYRIAD WAYS TO ENJOY THE VIEW

With living and dining areas aligned with the bedrooms for maximum natural light and ventilation, Vista Homes – which occupy over 80% of the apartments at Twin Waterfalls – provide residents with a truly efficient yet spacious and private layout. Most Vista Homes also face the swimming pool and recreation facilities, giving you the pleasure of waking up every morning to shimmering pool views and lush landscaping.

NOTES:

Wall

No tiles behind/below kitchen cabinets, bathroom cabinets, mirrors and above false ceiling. Wall surface above the false ceiling level will be left in its original bare condition.

Marble, Limestone and Granite

Marble, limestone and granite are natural stone materials containing veins with tonality differences. There will be colour and markings caused by their complex mineral composition and incorporated impurities. While such materials can be pre-selected before installation, this non-conformity in the marble, limestone or granite as well as non-uniformity between pieces cannot be totally avoided. Granite tiles are pre-polished before laying and care has been taken for their installation. However granite, being a much harder material than marble cannot be re-polished after installation. Hence some differences may be felt at the joints. The tonality and pattern of the marble, limestone or granite selected and installed shall be subject to availability

Cable Television and/or Internet Access

The Purchaser is liable to pay annual fee, subscription fee and such other fees to the StarHub Cable Vision Ltd (SCV) and/or internet service providers (ISP) or any other relevant party or any other relevant authorities. The Vendor is not responsible to make arrangements with any of the said parties for the service connection for their respective subscription channels and/or internet access.

Wardrobes, Kitchen Cabinets, Fan Coil Units, Gas Pipes and Heaters, Electrical Points, Door Swing Positions and Plaster Ceiling Boards

Layout/Location of wardrobes, kitchen cabinets, fan coil units, gas pipes and heaters, electrical points, door swing positions and plaster ceiling boards are subject to Architect's sole discretion and final design.

Warranties

Where warranties are given by the manufacturers and/or contractors and/or suppliers of any of the equipment and/or appliances installed by the Vendor at the Unit, the Vendor shall assign to the Purchaser such warranties at the time when possession of the Unit is delivered to the Purchaser.

Materials, Fittings, Equipment, Finishes, Installations and Appliances

The brand, colour and model of all materials, fittings equipment, finishes, installations and appliances supplied shall be provided subject to Architect's selection, market availability and the sole discretion of the Vendor.

Air-conditioning System

To ensure good working condition of the air-conditioning system, the system has to be maintained and cleaned by the Purchaser on a regular basis. This includes the cleaning of filters, clearing the condensate pipes and charging of gas.

Timber

Timber is a natural material containing grain/vein and tonal differences. Thus it is not possible to achieve total consistency of colour and grain in its selection and installation.

Internet Access

If the Purchaser requires internet access, the Purchaser will have to make direct arrangements with the Internet Service Provider and/or such relevant entities/authorities for internet services to the Unit and to make all necessary payments to the Internet Service Provider and/or the relevant entities/authorities.

Web Portal of the Housing Project

The Purchaser will have to pay annual fee, subscription fee or any such fee to the service provider of the Web Portal of the Housing Project as may be appointed by the Vendor or the management corporation when it is formed.

Glass

Glass is widely used in residential developments and may break/shatter due to accidental knocks or other causes. In addition, glass is a manufactured material and the Purchaser may wish to note that it may not be 100% free from impurities. These impurities may on rare occasions cause spontaneous glass breakage in certain pieces of tempered glass that may be used where applicable. It is difficult to detect these impurities, which may be present in tempered glass. The Purchaser may wish to take up insurance(s) covering glass breakage.

False Ceiling

The space provision allows for the optimal function and installation of M&E services. Access panels are allocated for ease of maintenance access to concealed M&E equipment for regular cleaning purposes. Where removal of equipment is needed, ceiling works would be required.

Mechanical Ventilation System

The mechanical ventilation system for the toilet, foyer and any other areas within the Unit's exhaust system is to be maintained by the Purchaser on a regular basis.

Tiles

Selected tile sizes and tile surface flatness cannot be perfect and are subject to acceptable range described in Singapore Standards SS483:2000.
